

The Superior Surface for interiors, exteriors and everything in between

INFINITY™
The engineered surface.

The Superior Surface

Infinity engineered surfaces are realized in big slabs for countertops, furnishings and building projects.

NEW-GENERATION PRODUCTS AND SERVICES

Infinity surfaces are derived from decades of experience achieved by Concorde Group, the major Italian manufacturer of ceramic floor and wall coverings for architecture and interior design.

We design, produce and sell large-size slabs for surfaces, furnishing accessories, for application on interior walls or for cladding of glued or ventilated walls.

Our slabs are manufactured in sizes of up to 3200 x 1600mm, and thicknesses of 6, 12 and 20 mm, for all kinds of requirements.

Why Infinity?

ADVANTAGES OF THE PRODUCT

All Infinity surfaces have structural, aesthetic and functional characteristics that make them a unique option for indoor and outdoor surfaces, furnishings, floor and wall coverings.

The slabs are resistant to wear, tear and scratches, and are easy to clean. As the years pass, they do not show the unattractive signs of wear typical of resins or other natural materials, and are not affected by heat or acids.

INFINITY SURFACE PROPERTIES

-  Made from quality raw materials
-  Versatile for any project
-  Non-absorbent
-  Resistant to liquids and acids
-  Resistant to thermal shock
-  Non-toxic slabs that do not release micro-particles
-  Hygienic surface
-  No alteration in colour
-  Resistant to heavy loads
-  Easy to clean
-  Resistant to scratches and abrasions
-  Resistant to frost
-  Resistant to heat
-  Surface suitable for contact with foodstuffs

Infinity offers a limited conventional warranty. For details, limitation and information: infinitysurfaces.co.za

Infinity's Full-veined Designs

TECHNOLOGY FOR OBTAINING VEINED SLABS

Natura-Vein™ Tech is a revolutionary innovation developed by Infinity technical experts to obtain veined slabs, recreating the effect found on natural marble.

During the production process, this technology makes it possible to obtain a controlled sedimentation of the minerals, passing through the full thickness of the slab for perfect consistency between the surface and the body.

Natura-Vein™ Tech is available in MB03 Classic Statuario 20mm Polish and 20mm Satin.

Kitchens

INFINITY PROVIDES THE PERFECT SURFACE FOR YOUR KITCHEN

The kitchen is the place where we are most at home, where our imagination and freedom find their best expression.

Thanks to the innovative large-scale surfaces, uniformity of design and elegance of details, Infinity surfaces will ensure that you cook and enjoy your meals with friends and family, always within the best standards of hygiene and comfort thanks to their technical characteristics.

Furnishings & Cladding

INFINITY SURFACES ARE SUITABLE FOR ALMOST ANYTHING YOU CAN IMAGINE

Just like a specially tailored garment, Infinity surfaces are perfect for applications such as interior and furniture cladding. The reduced weight and the ease with which it can be processed make it suitable for floors and walls, tables, countertops, doors, fireplaces and many other uses.

Bathrooms

CREATING THE PERFECT SPACE TO UNWIND

With nearly zero porosity, simple and intuitive maintenance and a rich repertoire of colours and finishes, Infinity surfaces are the ideal option for your vanity, basin, flooring or shower walls. The keywords are tonal continuity and balance.

Your bathroom, a place for cleanliness, personal care and relaxation will take on new importance and value thanks to our large Infinity slabs.

Outdoor Furnishing & Cladding

INFINITY IS DURABLE AND BEAUTIFUL - PERFECT FOR OUTDOOR USE

Infinity slabs can be used for creating outdoor furnishings and cladding exterior walls. The surfaces do not suffer from any problems linked to atmospheric temperature changes and guarantee ease of ordinary cleaning even when exposed to the weather.
